

35% of our business clients use
QuickBooks® to manage finances more
effectively and efficiently

CONSULTING

QuickBooks®

QuickBooks® has simplified the accounting, bookkeeping and financial management process for hundreds of AMD clients. In fact, approximately 35% of our business clients currently use QuickBooks® and have turned to the AMD QuickBooks® Consulting Group for implementation, training, troubleshooting, technical support and consulting.

Our Certified QuickBooks ProAdvisors® can show you how QuickBooks® can manage finances more effectively and efficiently. QuickBooks® simplifies many tasks including paying bills, invoicing customers, tracking sales tax, completing purchase orders, generating reports and more. Ultimately, it can increase productivity and profitability.

Quickbooks® Industry Solutions

QuickBooks® is not just for small business anymore. It can work for any type or size of business, and it can grow along with your company or organization. We also support QuickBooks® Industry Solutions, specific

software packages which address challenges and situations unique to each of these industries:

- Contracting
- Manufacturing
- Nonprofit
- Professional Services
- Retail
- Wholesale

QuickBooks® Enterprise Solutions

For larger companies and companies that have outgrown the traditional QuickBooks® software, AMD offers Enterprise Solutions. This top-of-the-line financial and business management solution offers enhanced performance, controls, functionality and capacity. It is an optimal alternative for growing businesses with multiple users or locations.
